Re: Board Update on Entry Gate

The Board of Directors reviewed the results of the Facebook Survey regarding Community interest for installing a traffic gate at the entry to Whisler Ridge. The poll was posted on September 26. Of those homes that voted, 25 voted against installing an entry gate and 11 supported an entry gate (duplicate votes from one household are counted as one vote). Although not all residents voted, the clear majority sentiment, based on the poll results, leads the Board to conclude unanimously that no further research or expenditures are warranted.
